WORK EXPERIENCE

Sabbatical

Travelling and Studying

02/2020 - Present

Sabbatical year with a stay in San Diego (CA) and travelling through Europe. Due to the pandemic plans had to be changed multiple times. During the + 3 month of staying at home, I used the time to study subjects that were interesting to me.

Courses and Certifications done during the Sabbatical:

- Professional Scrum Product Owner I Certificat
- Project Administration in Jira Server Certificat
- Jira Essentials with Agile Course
- Confluence Content Management Course

Consultant

Profidata AG / Investment Management Software Manufacturer

10/2013 - 01/2020

Urdorf, Switzerland

Consultant for software implementation projects with customer management responsibility (key account manager). Link between customers and development.

Tasks

- Managing and working on software implementation projects
- Performing data migrations (Excel and SQL)
- Consulting and implementation of technical and functional issues within and in the environment of the XENTIS software after extensive analyses
- Planning, coordination and implementation of software updates (release management)
- Providing internal and external training
- Testing of new software modules

English Language course

Workplace/Company

05/2013 - 09/2013

San Diego, USA

12 weeks intensive English course in advanced level

WORK EXPERIENCE

IT Support

Urner Kantonalbank

08/2010 - 04/2013

Altdorf, Switzerland

1st and 2nd Level IT Support for the entire bank. In addition, I was involved in smaller projects and I had some software responsibility.

Tasks

- Managing and solving IT support requests
- Single Point of Contact to Finnova, a banking ERP system
- Working and managing projects within the VoIP environment
- Visual Basic programming in the Office environment regarding banking use-cases

Database Project

RUAG AG

02/2010 - 07/2010

Emmen, Switzerland

Creating a MS Access Database from scratch within a seven weeks project. Temporary employment. During this time I also completed the Swiss compulsory military service as a tank driver.

IT Support

Amt für Informatik / Public IT Service Provider

09/2009 - 02/2010

Altdorf, Switzerland

First temporary job after completing my IT apprenticeship with the same company, which is an IT service provider in the public sector.

Tasks

- 1st level support for all users in the organisation
- Installation and configuration from Windows Clients and applications
- Maintenance within the Microsoft Server environment (AD, DNS, SCCM, Exchange)
